STUDENT WELLBEING AND ENGAGEMENT POLICY

POLICY IMPLEMENTATION

Carranballac P-9 College is committed to ensuring that information and procedures to enable and to respond to concerns raised by students are age-appropriate, simple, and accessible for all students including students from culturally and linguistically diverse backgrounds, Aboriginal and Torres Strait Islander students, students with disability, LGBTIQ+ students and other vulnerable students. We openly display contact details for independent child advocacy and child helpline services throughout the school. The school delivers age-appropriate education to all students about:

- healthy and respectful relationships (including sexuality)
- resilience and coping with adversity
- child abuse awareness and their right to be safe
- their right to make decisions about their body and their privacy
- how they can raise concerns about safety, abuse or other harm
- any concerns raised will be taken seriously and responded to appropriately

Information about these and other child safety and wellbeing topics, is made available to all students through various age-appropriate engagement and wellbeing initiatives as well as communications such as newsletters and the school's website and communication portal. Child safety and wellbeing topics are also incorporated into the school's curriculum.

In our school a range of student diversity exists. Within this diversity, our school aims to challenge all students to become optimistic, resilient, creative and critical thinkers. We seek to promote our school values of diversity, achievement, responsibility and endeavour throughout the curriculum, in co-curricular activities, and in our daily operations.

1. School profile

Carranballac P-9 College is a unique dual-campus Foundation- Year 9 College, encompassing Boardwalk and Jamieson Way Campuses. Both campuses cater for the needs of students across two stages of schooling, Primary Years (Foundation- Year 6) and Secondary Years (Years 7-9). In 2024 there are 959 students including 27 international students enrolled across the College, 6 principals, 96 teaching staff and 53 education support staff. Our students come from a diverse range of backgrounds with 3% being Aboriginal & Torres Strait Islander, 36 % EAL, 28% disadvantaged and 12% with a disability. The College provides student well-being support, which consists of a coordinator, Speech Pathologist, Mental Health Practitioners for primary and secondary students, and a Defence School Mentor. The College vision, '*One College, Infinite Possibilities, Working Together, Embracing the Future*' provides the foundation for our daily work.

A culture of adult learning has been fostered successfully at the college where teachers are learners working together in professional learning communities to analyse and discuss student data and ensure learning programs are targeted to individual student needs. The college has recently refined its instructional model which emphasises elements of best teaching practice including the Department's High Impact Teaching Strategies.

The College values of Respect, Resilience, Responsibility, Integrity and Inclusiveness underpin our school-wide positive behaviour program and are forefront in our vision, future planning and practices.

3. Engagement strategies

Carranballac P-9 College recognises that the most effective teaching and learning occurs in an environment where teachers and students maintain strong, positive and respectful relationships.

Carranballac P-9 College has developed a range of strategies to promote engagement, an inclusive and safe environment, positive behaviour, and respectful relationships for all students in our school. We recognise the importance of student friendships and peer support in helping children and students feel safe and less isolated. We acknowledge that some students may need extra social, emotional or educational support at school, and that the needs of students will change over time as they grow and learn.

Encouraging Expected Behaviours

Teaching expected positive behaviours is necessary, but not sufficient for success in learning. Schools must also provide incentives to encourage students to use pro-social skills. The critical element of an incentive system is not the token or tangible, but the social acknowledgement and interaction between the student and the school. Carranballac P-9 College has developed and implemented school strategies for staff to use when students exhibit the expected positive behaviours related to the school values and expectations.

Positive Reinforcement

STUDENT WELLBEING AND ENGAGEMENT POLICY

The implementation of School Wide Positive Behaviours (SWPBS) and Social and Emotional Learning (SEL) programs across the school supports the provision of a safe and supportive learning environment. Carranballac P-9 College adopts a whole-school behaviour management approach that is based on pro-social values, social competencies, incentives and positive peer relationships.

The college approach creates a positive school climate and a culture of student competence so that all students understand clearly what is expected of them, together with an open, responsive management system for school leaders, teachers, students and parents. This includes establishing practices and systems, such as effective collection and analysis of data, needed to support all students, including those most vulnerable, to achieve both academic and social success.

Our key focus is on prevention and early intervention strategies that:

- define and teach school-wide and classroom expectations
- establish consistent school-wide and classroom consequences for problem behaviour
- establish school-wide and classroom processes for early identification of students experiencing academic and/or behaviour difficulty
- provide school-wide and classroom processes for ongoing collection and use of data for decision-making
- empower students by creating multiple opportunities for them to take responsibility and be involved in decision-making
- provide a physical environment conducive to positive behaviours and effective engagement in learning

Our aim is to increase parent engagement through greater involvement in classroom curriculum support, excursions and parent learning programs and through the implementation of SWPBS and SEL programs that manage incidents via increasingly clear and well-understood processes. This in turn promotes better community engagement. We endeavor to maintain strong relationships with all relevant support agencies.

When a student acts in breach of the behaviour standards of our school community, Carranballac P-9 College will institute a staged response, consistent with the Department's policies on behaviour, discipline and student wellbeing and engagement. Where appropriate, parents will be informed about the inappropriate behaviour and the disciplinary action taken by teachers and other school staff.

Our school considers, explores and implements positive and non-punitive interventions to support student behaviour before considering disciplinary measures such as detention, withdrawal of privileges or withdrawal from class.

When a student acts in breach of the behaviour standards of our school community, Carranballac P-9 College will institute a staged response, consistent with the Department's Student Engagement and Inclusion Guidelines and Behaviour policy. Where appropriate, parents will be informed about the inappropriate behaviour and the disciplinary action taken by teachers and other school staff.

STUDENT WELLBEING AND ENGAGEMENT POLICY

The Principal of Carranballac P-9 College is responsible for ensuring all suspensions and expulsions are recorded on CASES21.

Carranballac P-9 College has clearly stated expectations of appropriate behaviours. All members of the school community share responsibility to support the appropriate behaviour expectations outlined in the school agreements. In cases where students do not meet the expectations, every effort is made to provide consequences in a consistent, fair and transparent manner to achieve positive outcomes for the student.

Students will only be excluded from school when all other measures deemed appropriate have been exhausted or been implemented without success or where immediate suspension is the only appropriate course of action given the student's behaviour. Suspension or expulsion measures are the responsibility of the school governing Board, the principal and/or deputy principal.

The school will consider the educational and emotional impacts on the student and take into account situations where a student is in out-of-home care, a Koori student, and/or a student with a disability, when taking suspension or expulsion measures. If a student is suspended it should be for the shortest time necessary. The period of suspension should be used by the school, the student and the student's parents/carers as an opportunity to reflect on the present difficulties and develop positive, student-focused re-engagement strategies.

Suspension, expulsion and restrictive interventions are measures of last resort and may only be used in situations consistent with Department policy, available at:

- <https://www2.education.vic.gov.au/pal/suspensions/policy>
